The following is an examiner's statement of reasons for allowance: Asai et al '771 is typical of the prior art of record in its showing a device for mixing elastomer materials. Nothing in this reference or the other prior art of record teaches or makes obvious the limitations of an apparatus with a continuous jet feed of filler, substantially complete coagulation of latex, coupled with a compounder in such a manner that accomplishes continuous coagulation and compounding.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
